Subject: RM 10.9 QAPP Addendum C comments (Part 1).....

Hi Rob,

Sorry for the hold up on sending comments on Addendum C. I hope to send our broader comments on the scope of the QAPP, including on the porewater sampling memo you sent, later today or tomorrow -- I'm just waiting on feedback from one more person.

However, here are our (very minor) comments on the QAPP itself. I understand that the geotechnical work is scheduled to start the week of June 25th, and there's no need to hold that up.

Please let me know if you have any questions.

Thanks,
Stephanie

Introduction, Page 5 of 7 With regard to Worksheet #7, this page indicates the CH2M Hill Feasibility Study Manager is provided, however the only CH2M Hill staff listed on Worksheet #7 is referred to as the PM. Please revise accordingly.

Worksheet #23, Page 1 of 1 In footnote 1, Appendix C-1 of the RM 10.9 QAPP is referenced for the analytical SOPs. The laboratory SOPs appear to be included in Appendix B of QAPP Addendum C. Please verify and revise accordingly.
